SWITCHMEN ON CHICAGO ROADS FAVOR STRIKE

By Associated Press
CHICAGO, Feb. 9.—By a reported vote of 2,007 to 91, the switchmen of the members of the Brotherhood of Railway Trainmen on 18 Chicago railroads decided in favor of a strike. The vote was announced today. At a recent conference between the representatives of the union and the general managers of the railroads the increase in wages was refused. The railroads made certain concessions in working rules and offered to submit the wage question to arbitration. The switchmen say they don't want arbitration, but it is generally believed by the railroads that the question will be settled by that method, and that there will be no strike. The Brotherhood will give the ultimatum to the railroad managers tomorrow.

SPANISH CABINET RESIGNS ON ACCOUNT OF DISSENTIONS

Ministers do Not Favor Policy of the Premier in Asking for Support From the Rival Party.

By Associated Press
MADRID, Feb. 9.—The internal liberal dissensions culminated today in the resignation of the Spanish cabinet of which Moret Y Prendergrast is the premier. The king at once charged Jose Cantalejas Y Mendos, the democrat leader of the extreme liberal left wing for the new ministry. The dissention is the outgrowth of the premier's intended appointment as minister of the interior and the contention of the right wing liberals that Senor Morets catering for the support of republicans was tending to imperil the monarchy. The climax was reached when the executive committee of the liberal party headed by Senor Remanones resigned and the majority of the liberal ex-ministers advised the king if a radical change in policies was impossible. Premier Moret should be superseded in the interests of harmony and that the cabinet should be reorganized.

Asserts that Temporary Chief Took Action to Abolish Collegiate Training at the Government's Expense

By Associated Press
NEW YORK, Feb. 9.—Gifford Pinchot, the deposed chief forester of the United States, but still loyal to his policies as president of the national conservation commission, defended the rangers of the forest service in a speech before the National Art club tonight. Pinchot bitterly assailed the action of Geo. P. McCabe, the solicitor of the department who as temporary chief after Pinchot's dismissal, took action to abolish collegiate training at the government expense. This action, Pinchot described as "A secret attack on the service and prostituting of the law by a method so effectively used by the special interests against the people and a cruel and needless loss."

In his address Pinchot charged that McCabe with having sent telegrams to disbursing officers in the field not to pay any expenses connected with ranger schools at four state universities and also that the telegrams were kept secret from every member of the service at

Washington except the stenographer who wrote them. According to Pinchot a letter was prepared and sent to the comptroller by McCabe asking for speedy advice and decision as to the legality of the ranger schools. "This letter was clearly intended and so framed as to secure a decision against the schools and it was successful in doing so," said the former chief forester.

WASHINGTON, Feb. 9.—George McCabe the solicitor of the department of agriculture, characterized the charge made by Pinchot that he shut off instruction of forest rangers without consulting any one in the forest service as "absolutely untrue." McCabe stated he believed such an expenditure was not legally permissible and that he brought the matter to the attention of the chiefs of the various divisions of the service. He declared he acted only as an officer of the government in pursuance of his duty.
